

120

SEMI-AUTOMATIC HAND FED POUCH FILLER

The TORRFiller™ 120 is a single head, semi-automatic filler for filling stand up pouches with side seam welded spouts from 8mm to 28mm ID.

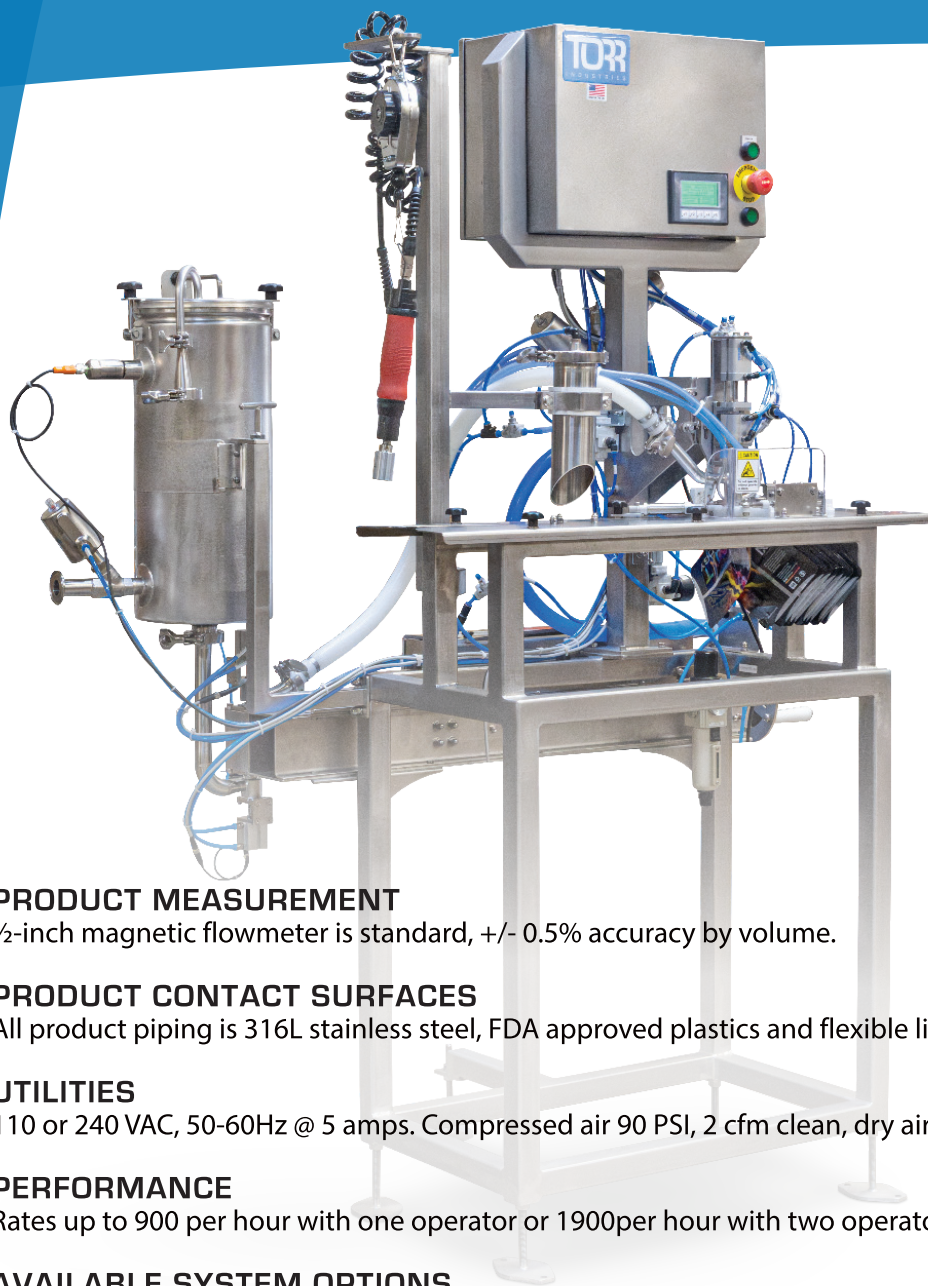

The fill cycle is automatic using an air actuated fill valve with an optional vacuum and nitrogen purge capability. The product is manually capped by the machine operator with a handheld electric cap sealer.

The filler accommodates pouches from your favorite vendors in sizes ranging from 100ml (3.4 oz) up to 3liters (0.79 gallon) capacity and can fill either center or corner mounted spouts.

TORRFiller™ 120 comes standard with a ½-inch magnetic flowmeter. The piston pump option provides fast accurate fills. A mass flow meter is also available for products containing particulates. The bag infeed rail allows for easy preloading. Automatic infeed and product supply & pump options available.

See it in action at
